360 DEGREE FEEDBACK QUESTIONNAIRE — END-OF-PROGRAM

Thank you for accepting our invitation to take part in this feedback process. The PROPEL participants and the Program Coordinators greatly appreciate your time to complete this questionnaire.

Your responses, along with responses from others who have been invited to complete this questionnaire, will be summarised in a report which will be provided to the PROPEL Program participant at the conclusion of the Program.

It should take around 15 minutes to complete the questionnaire. If you have any questions or would like further information prior to completing the questionnaire, please contact the PROPEL Coordinators.

Consent to participate

- I am aware that my responses WILL BE POTENTIALLY IDENTIFIABLE to the participant for whom I am giving feedback due to the small respondent numbers (between 2 and 5 respondents with the same working relationship to the participant).
- I understand that my participation is voluntary, I am free to decline the invitation to participate and I am free to reverse my decision to participate and withdraw any responses I have provided.

By ticking the 'I Agree' check box below I am indicating my consent to providing feedback on the PROPEL participant and allowing the PROPEL Coordinators to present my feedback to the participant in a summarised report. I understand that my detailed responses will be confidential to the participant and the Coordinators, however some aggregated and de-identified data may be included in Program evaluation reports. I consent for it to be used in that manner.

Academic leadership scale

The next part of this questionnaire asks for your ratings against a scale of leadership attributes.

This scale is based on the PROPEL Leadership Attribute Domains, which were developed from research undertaken at the University of Wollongong, Australia. The research encompassed the views of academic staff in both leadership and non-leadership roles.

Leadership attributes are divided into six domains:

•	Position	Think and act strategically to position yourself, your staff and your unit
		within your university and the wider context.
•	Reflect	Reflect on yourself as a leader and be prepared to make changes.
•	Open	Open out to your staff on both the professional and personal levels.
•	Provide	Provide a supporting environment in which your staff will thrive.
•	Enable	Enable your unit to always move forward.
•	Link	Create links and connections with other staff, faculties and institutions
		which will strengthen your unit and your discipline.

Participants in the PROPEL Program have a wide range of academic leadership backgrounds, from very limited to acting in senior leadership roles.

When answering the following questions, please consider how well you believe the participant meets (or WOULD meet, if he/she took on a leadership role today) the demands placed on him/her as an academic leader.

For each domain, you will have the chance to provide examples of the participant's current strengths and areas for improvement. Please answer frankly, as the participant will be using the results to plan his/her leadership development.

Some questions may be difficult to answer for participants with limited leadership experience. If you feel you can't predict how the participant would meet a particular demand, please indicate 'Unable to say'.

Answers to individual questions will only be seen by the participant and the Program Coordinators. Only an average 'score' for each dimension based on all 360 degree responses will be included in any reports developed for evaluation of the Program.
