PhD, Commerce (commenced Jan 2011)
Challenges

- Expect hardships - “if it was easy, everyone would have one”
- Prepare to be uncomfortable
- The more you learn, the less you know
What can help?

- You are not alone! (SI.net HDR forum)
- When in doubt – write
- Find a critical friend (and be one yourself!)
- Take a break, but not too many...
What challenges have you been facing in your HDR journey?
A HDR is just part of the process, not a goal in itself.
The aim is to learn, so focus on that!
HDR is not always proof of quality...
